## Summary

Talented Android Application Developer with 3+ years of experience in designing, developing, and optimizing applications for the Android platform. Strong foundation in Kotlin and a proven track record of maintaining user-friendly, high-performance apps. I have worked with a couple of startups in the past, creating projects from scratch, and have contributed to scalable apps like Paytm, a reputed brand known for its advanced technology.

## Skills

**Programming:** Kotlin, Java

**Frameworks:** Android, Flutter

**Tools and Libraries:** Jira, Confluence, Jenkins, Retrofit, Room, Realm, Hilt, Jetpack Compose, GitHub, Android Studio, Media Store, Clean Code, Software Architecture

**Personal Skills:** Communication, Teamwork, Quick Learner, Time Management

## Experience

### DeltaFour

Dec 2023 - Present (6 months)

*Software Development Engineer (Part-time)*

- Reduced development time by 30% through efficient coding practices.
- Enhanced app speed by 10% with proposed optimizations.
- Decreased codebase size by 5% using best practices in code implementation.

### One97 Communications Limited

May 2023 - Sept 2023 (5 months)

*Software Engineer*

- Developed a highly scalable application.
- Collaborated with cross-functional teams to deliver efficient, error-free code.
- Improved feature deployment by 10% using agile methodologies.

### Teckborn Technologies Pvt Ltd

May 2022 - May 2023 (1 year 1 month)

*Android Developer*

- Collaborated on scalable software solutions.
- Maintained efficient timelines with agile methodologies.
- Ensured high performance through unit tests and instrumentation.

### Magic Apps

Aug 2021 - Apr 2022 (9 months)

*Software Developer*

- Developed and maintained projects with cross-functional teams.
- Documented code and participated in code reviews.

### Xatcovis Solutions Pvt Ltd

Feb 2019 - Jul 2019 (6 months)

*Android Developer Intern*

- Designed and maintained scalable projects with cross-functional teams.
- Optimized app performance and resolved bottlenecks.

### ThePadosi

Sep 2018 - Nov 2018 (3 months)

*Android Developer Intern*

- Developed and maintained scalable projects with cross-platform teams.
- Enhanced maintainability through comprehensive code documentation.

## Education

**Dr. A.P.J. Abdul Kalam Technical University**  
Electrical, Electronics and Communications Engineering  
Aug 2015 - Jul 2019

*Bachelor of Technology (B.Tech)*

**Karl Huber Public School**  
High School (CBSE)  
April 2014 - March 2015

## Licenses & Certifications

- Basic Java - HackerRank
- React Native - Udemy
- Android Layout - Udacity
- Data Structures and Algorithms - LeetCode
- Object Oriented Programming

## Projects

### **payRup**

*Teckborn Technologies*

Instant payment application for daily utilities including electricity bill, mobile bill, prepaid recharge, DTH recharge, broadband bill payment, and more.

### **PDF Converter**

*Personal Project*

Offline Android application to convert PDF pages into images or create new documents from existing ones.

### **Whatsapp Status Downloader**

*Magic Apps*

Application to automatically store WhatsApp statuses for a week, with an option to save them permanently.
